Profile

Reliable and personable Computer Science undergraduate at the University of Westminster, currently predicted a First, with several years' experience across retail and customer-facing roles, including ongoing work as a Partner at Waitrose. Comfortable working in fast-paced, team-based environments, with a strong track record of balancing part-time employment alongside full-time study. Combines hands-on technical skills from software development and machine-learning projects with practical, transferable strengths in communication, organisation and customer service. A motivated, well-rounded individual — a Physics and Music Scholar at school and a competitive presenter — now looking for an additional part-time role to fit around university commitments.

Skills

Technical: Python • Java • JavaScript • HTML/CSS • Django • REST APIs (JAX-RS) • SQL / SQLite • Git & GitHub • Machine Learning (Scikit-learn, Pandas, NumPy) • Data visualisation (Matplotlib) • Postman / Thunder Client • Bootstrap • MVC/MVT architecture • Maven • PC & laptop building / hardware troubleshooting • Currently learning: Tableau, AWS Cloud

Non-Technical: Communication • Teamwork & collaboration • Customer service • Time management • Problem-solving • Adaptability & quick learning • Reliability & strong work ethic • Attention to detail • Organisation • Leadership

Work Experience

Sales Assistant — Waitrose, London *Nov 2024 – Present*

- Trusted with a wider range of responsibilities than a standard role, including running the shop floor unsupervised at times.
- Confident across the majority of in-store tasks — customer service, till operations, stock and cashier duties — as a Partner in the John Lewis Partnership.

Retail Assistant — Under Armour *Jun 2024 – Aug 2024*

- Assisted customers on the shop floor and helped maintain stock and displays in a fast-paced retail environment.

Supermarket Assistant — Waitrose, London *Sept 2022 – Jun 2023*

- Assisted customers with a range of needs and sold products on the shop floor.
- Carried out stock rotation, loading/unloading, warehouse organisation and cashier duties, keeping the shop floor hygienic and well presented.

Barista — Café Crepe *Sept 2021 – May 2022*

- Prepared crêpes, sandwiches, and a variety of hot and cold beverages to order.
- Fulfilled customer orders efficiently and kept the kitchen area clean and organised.

Building Labourer — HJ Building Development *Jun 2021 – Aug 2021*

- Assisted the foreman with raw material logistics, mixed and prepared cement, and dug foundations to architectural specification.

Education

BSc Computer Science — University of Westminster *2024 – 2027 (predicted: First)*

A-Levels: Maths (B), Further Maths (B), Physics (C) — Ashmole Sixth Form *2021 – 2023*

GCSEs: Maths (8), Science (7,7), English (6,6), Music (7), Drama (7) — Ashmole Academy *2016 – 2021*

Achievements & Projects

- Physics Scholar — designed and built a rocket with two colleagues.
- Music Scholar (entry scholarship, Ashmole); Piano Grade 7; also plays guitar.
- 2nd place, Ashmole Presentation Award (whole-school competition).
- Attended a particle physics masterclass at UCL, working with CERN data and software.
- Sky Teams — Django web app (group software project): full-stack team-management system built with Python/Django, SQLite and Bootstrap; collaborated via Git/GitHub (branching, merging, conflict resolution).
- SmartCampusAPI — Java REST API: designed and built a RESTful API (JAX-RS, Maven) for smart-campus room/sensor data, with full CRUD endpoints tested via Postman.
- Machine Learning project (Python): cleaned and modelled a real-world dataset, comparing Logistic Regression, KNN and Naive Bayes classifiers (best ~92% accuracy) plus a regression task, using Pandas, NumPy and Scikit-learn.
- Physically active; strong interest in data.
